Katie Gurnett Elected President of AICP

Katie Gurnett, a compliance coordinator at Physicians Mutual Insurance Company in Omaha, NE, and a 23-year veteran of the insurance industry, has been elected president of the Association of Insurance Compliance Professionals (AICP) for the 2006-2007 term.

She has been vice-president of the association and has chaired its membership committee and bylaws committee and served on its conference planning committee. She has also held several positions with the AICP's Heartland Chapter, including newsletter editor, vice president, and president. Gurnett earned a B.S. degree in mathematics and an MBA from Creighton University in Omaha. She has the designations of MBA, CPCU, CLU, AAPA, HIA, AIRC, FLMI, and CCP.

“I think AICP is moving towards being the premier compliance organization, which is sought out by industry leaders and regulators of all states to help educate insurance personnel,” Gurnett said. “I think it is important that AICP remain a valuable source of education and information to all its members and nonmembers – industry and regulatory – so we can make sure that consumers have the products they need in a timely manner as well as enabling us to do our jobs efficiently and effectively.”

According to the new AICP president, “communication is the key, and AICP is the organization that will facilitate that through education and networking opportunities.”

The Association of Insurance Compliance Professionals, with over 1,400 current members, serves the insurance compliance community by promoting relationships, exchanging information, and providing learning opportunities within a dynamic regulatory environment. Members include personnel from property, casualty, life and health insurers, regulatory agencies, consultants and other specialty operations. The AICP is dedicated to promoting regulatory competence and awareness for the improvement of regulatory compliance within the insurance industry.
